

**THE INSTITUTE OF VETERINARY BACTERIOLOGY OF THE UNIVERSITY OF
BERN OFFERS A**

**European College of Veterinary Microbiology
Residency Training Position (100%)
(Duration: 3 years)**

starting date: April 2022 or by arrangement

We are looking for a flexible and highly-motivated veterinarian to join our diagnostic team for up to three years. Work in the diagnostic unit is geared to obtain sufficient proficiency to take the European College of Veterinary Microbiology Board Examination. If the candidate wishes, there is also the possibility to take the examination of the American College of Veterinary Microbiologists

Responsibilities and tasks:

- Case management incl. sample preparation, performance of tests, reporting of results and communication with clients (in German and French)
- Antimicrobial resistance monitoring
- Supervision of staff
- Assistance in teaching duties of university students
- Generation of scientific data and publications in peer-reviewed journals

Requirements:

- A veterinary degree
- A PhD or doctoral degree
- Excellent communication and interpersonal skills
- Language requirements: Fluent in German and English and at least basic communication skills in French

Clinical experience is an asset.

We offer a job with diverse and interesting opportunities. Our institute is situated just a few minutes away from the center of Bern and an international team is waiting for you! Salary and social benefits according to the guidelines of the University of Bern.
